PUBLIC LAWS 815 AND 874
and
THEIR EFFECT ON THE COMMONWEALTH OF MASSACHUSETTS

Since the inception of Public Laws 815 and 874, Massachusetts has been a very active participant. From a small number of approximately five applicants for P. L. 874 aid, the number of applicants has increased to about 175. Massachusetts has nearly one-half of all the applicants in the six New England States.

Public Laws 815 and 874 were instituted to alleviate the burden on local educational agencies caused by the impact of Federally-connected pupils on public school enrollment.

Massachusetts receives P. L. 874 aid under Section 3, which states "Decreased local revenues by reason of tax-exempt status of Federal property constituting place of residence of children or place of employment of parents." The two categories under which Massachusetts makes application for P. L. 874 are Category "A" or Subsection 3(a) and Category "B" or Subsection 3(b).

Category "A" authorizes financial assistance to local educational agencies providing free public education for children who reside on Federal property with a parent employed on Federal property situated in whole or in part in the same State as the school district or within reasonable commuting distance of such school district, or who reside on Federal property and have a parent on active duty in the Armed Forces.

Category "B" authorizes the same assistance as Category "A" to the local educational agencies which provide free public education to children who either reside on Federal property or reside with a parent employed on Federal property situated in whole or in part in the same State as the school

PUBLIC LAWS 815 AND 874

and

THEIR EFFECT ON THE COMMONWEALTH OF MASSACHUSETTS

Since the inception of Public Laws 815 and 874, Massachusetts has been a very active participant. From a small number of approximately five applicants for P. L. 874 aid, the number of applicants has increased to about 175. Massachusetts has nearly one-half of all the applicants in the six New England States.

Public Laws 815 and 874 were instituted to alleviate the burden on local educational agencies caused by the impact of federally-connected pupils on public school enrollment.

Massachusetts receives P. L. 874 aid under Section 3, which states "Decreased local revenues by reason of tax-exempt status of Federal property constituting place of residence of children or place of employment of parents." The two categories under which Massachusetts makes application for P. L. 874 are Category "A" or Subsection 3(a) and Category "B" or Subsection 3(b).

Category "A" authorizes financial assistance to local educational agencies providing free public education for children who reside on Federal property with a parent employed on Federal property situated in whole or in part in the same State as the school district or within reasonable commuting distance of such school district, or who reside on Federal property and have a parent on active duty in the Armed Forces.

Category "B" authorizes the same assistance as Category "A" to the local educational agencies which provide free public education to children who either reside on Federal property or reside with a parent employed on Federal property situated in whole or in part in the same State as the school

district or situated within a reasonable commuting distance of the school district, and for "Armed Forces" children under certain circumstances.

Public Law 815 provides Federal financial assistance for construction by local educational agencies of urgently needed minimum school facilities in school districts which have had substantial increases in school membership due to new or increased Federal activities. This aid is also available for construction of minimum school facilities by local educational agencies where many pupils reside on tax-exempt Federal properties, mainly Indian reservations, as well as for the construction of minimum school facilities by the Federal Government on Federal property (such as Army, Navy, and Air Force installations) when no State or local educational agency can legally do so. The grants are based on Section 5 (increase in Federally-connected membership) and Section 14 (number of children residing on Federal property and for whom responsible local agencies are financially unable to provide needed minimum school facilities).

From 1951 through September 30, 1960, there were 21 projects approved, 216 classrooms provided, and 6113 children housed for Massachusetts P. L. 815 applicants.

Following this brief history of Public Laws 815 and 874 in connection with the Commonwealth of Massachusetts, there is a cummulative listing of the total number of P. L. 815 applicants and the total reserved Federal funds from 1951 to 1961, together with the total number of P. L. 874 applicants and the net entitlements for each year from 1951 to 1961.

Three tables containing data pertinent to Public Laws 815 and 874 concerning Massachusetts applicants are included in this pamphlet.

district or situated within a reasonable commuting distance of the school district, and for "Armed Forces" children under certain circumstances.

Public Law 815 provides Federal financial assistance for construction by local educational agencies of urgently needed minimum school facilities in school districts which have had substantial increases in school membership due to new or increased Federal activities. This aid is also available for construction of minimum school facilities by local educational agencies where many pupils reside on tax-exempt Federal properties, mainly Indian reservations, as well as for the construction of minimum school facilities by the Federal Government on Federal property (such as Army, Navy, and Air Force installations) when no State or local educational agency can legally do so. The grants are based on Section 5 (increase in Federally-connected membership) and Section 14 (number of children residing on Federal property and for whom responsible local agencies are financially unable to provide needed minimum school facilities).

From 1951 through September 30, 1960, there were 21 projects approved, 216 classrooms provided, and 6113 children housed for Massachusetts P. L. 815 applicants.

Following this brief history of Public Laws 815 and 874 in connection with the Commonwealth of Massachusetts, there is a cumulative listing of the total number of P. L. 815 applicants and the total received Federal funds from 1951 to 1961, together with the total number of P. L. 874 applicants and the net entitlements for each year from 1951 to 1961.

Three tables containing data pertinent to Public Laws 815 and 874 concerning Massachusetts applicants are included in this pamphlet.
